I'm a dedicated and hard worker and always give my best. I'm willing to learn so that I stay up to date with the latest trends in the world of technology. I have a passion for what I do and strive to be better every single day

Experience

EmbedIT

Genesys consultant
May 2024 - Present (2 years 2 months)
Czechia

As part of the CX technology team, I provide comprehensive support and solutions within the Genesys platform, spanning both Genesys Engage and Genesys Cloud environments. My role bridges technical expertise with strategic thinking to deliver exceptional service to our clients.

Key Responsibilities:

- Delivering end-to-end support (L1, L2, L3) across the Genesys Engage platform to ensure smooth and reliable operations.
- Collaborating on project initiatives to support system implementations, migrations, and enhancements.
- Leading investigations and evaluations of new features and technologies, ensuring alignment with business objectives.
- Performing application upgrades and ongoing platform maintenance for optimal system performance.
- Designing solutions in Genesys Cloud, including Architect flows and overall solution architecture.
- Conducting feature analysis, functional testing, and validation of new capabilities across platforms.
- Creating and maintaining reports and dashboards to track system performance and customer experience metrics.

- Supporting Voice and ChatBot solutions, enhancing self-service capabilities and automation strategies.
- Setting up and configuring integrations with third-party systems to ensure seamless interoperability.
- Using Genesys Cloud APIs for reporting and extracting customer-required data, including implementing notification alerts for proactive monitoring.

I work closely with our customers to understand their unique business needs and challenges, ensuring we tailor solutions that maximize value and improve customer engagement. My focus is always on delivering proactive support and innovative CX solutions that drive customer satisfaction.

Altron Digital Business

13 years 3 months

Technical Account Manager at Multichoice
February 2011 - April 2024 (13 years 3 months)
South Africa

Key Responsibilities:

Delivered comprehensive end-to-end support (L1, L2, L3) across the Genesys Cloud platform, ensuring seamless and reliable operations.

Partnered with vendors to manage and resolve incidents and requests within agreed SLAs.

Compiled and presented weekly and monthly service level reports to customers.

Collaborated with customers and stakeholders on BAU activities while identifying and addressing evolving business requirements.

Facilitated training sessions for contact center agents and supervisors.

Developed and customized customer reports leveraging Genesys Cloud APIs.

Worked closely with internal teams (networks, security, etc.) to support BAU operations and deliver new projects impacting Genesys Cloud contact centers.

Key Achievement:

Played a pivotal role in the successful migration of 13 sites from Genesys Engage to Genesys Cloud.

As Technical Account Manager for the CX department, focused on delivering proactive support and innovative CX solutions to enhance customer satisfaction.
